Video: Varimixer SoMe Pancakes

Did you know that you can make batter for 300 perfect pancakes in one go on a 40L Varimixer? Here are two tips that will make your pancakes extra tender, flavorful and fluffy:

1. Don't over mix the batter. Just mix for 3-5 minutes. Getting too vigorous with your mixing can cause the gluten in the flour to develop and make the pancakes chewy and tough.
2. Buttermilk makes the most tender, fluffy pancakes. It breaks down the strands of gluten and reacts with baking soda to help pancakes rise to their fluffiest potential. Meet us at www.varimixer.com
